To learn more about a career interest — We offer online courses in veterinary science, computer programming, medical terminology, astronomy, oceanography, and many other fascinating, career-oriented subjects!

To recover credits in a course they failed during a previous semester — We offer a special program called Essentials for online credit recovery students that provides them with extra support in their online courses.

To fulfill prerequisites — so they can begin AP courses or dual enrollment in the Fall.

To create more space in next year’s schedule — so they can take band, orchestra, choir, AP courses, or dual enroll.

To practice their math and English skills over the summer — Studies show that students lose up to 2 months of math and reading skills over the summer. With our EdReady Math and English programs, they can keep their minds active and either catch up to or surpass grade-level expectations.

To keep their world language learning skills fresh — so they don’t lose three months of practice over the summer.

To begin learning a new world language — We offer 6 world languages over the summer, including Spanish, French, German, American Sign Language, Japanese, and Latin.

To audit a challenging course they plan to take in the Fall — If students choose to audit a course, it will not count as a credit, but also will not affect their GPA.

To earn NCAA credits (for student-athletes) — Online courses that are NCAA-accredited allow student-athletes get ahead on college requirements over the summer, so they have more flexibility for balancing sports and school in the upcoming year.

To prevent summer brain drain — On average, it is predicted that students lose about one month’s worth of learning over the summer. Online summer courses help students keep their minds active during summer break!
