

ONLINE SUMMER CAMP: MINECRAFT EDITION

GRADES 3-8

If they're going to play video games this summer,
they might as well learn along the way!

Not an official Minecraft product. Not approved by or associated with Mojang.

Other Summer Learning Options

Summer French & German Boost

Keep your students' (grades 8-12) world language skills sharp with online summer programs powered by Lingco Language Labs' artificial intelligence-driven software.

Free Mental Health & Social Emotional Lessons

Our new Michigan Cares program provides FREE lessons and videos to K-12 students, parents, and educators on developing critical skills required for mental, social, and emotional wellbeing.

Online Summer Courses

During the summer, we offer online courses on over 150 different subjects. Students (grades 6-12) have 10 weeks to complete summer coursework at their own pace and will be supported along the way by a highly qualified, Michigan-certified online instructor who is an expert in their subject area.

EdReady Math & English

EdReady Math (grades 4-12) and EdReady English (grades 8-12) empower students to meet their college and career aspirations by providing them with a personalized study path to mastering critical skills and concepts in math and English. These learning experiences are FREE for a limited time.
