TOP 10 REASONS STUDENTS TAKE ONLINE SUMMER COURSES

1. **To prevent summer brain drain** — On average, it is predicted that students lose about one month’s worth of learning over the summer. Online summer courses help students keep their minds active during summer break!

2. **To learn more about a career interest** — For example, we offer online courses in veterinary science, computer programming, medical terminology, astronomy, oceanography, and many more!

3. **To recover credits in a course they failed during a previous semester** — We offer a special program called Essentials for online credit recovery students that provides them with extra support in their online courses.

4. **To fulfill prerequisites**, so they can begin AP courses or dual enrollment in the Fall.

5. **To create more space in next year’s schedule**, so they can take band, orchestra, choir, AP courses, or dual enroll.

6. **To practice their math and English skills over the summer** — Studies show that students lose up to 2 months of math and reading skills over the summer. With EdReady Math and EdReady English, they can keep their minds active, prepare for college, and either catch up to or surpass grade-level expectations.

7. **To keep their world language learning skills fresh**, so they don’t lose three months of practice over the summer.

8. **To begin learning a new world language** — We offer 6 world languages over the summer, including Spanish, French, German, American Sign Language, Japanese, and Latin.

9. **To audit a challenging course they plan to take in the Fall** — If students choose to audit a course, it will not count as a credit, but also will not affect their GPA.

10. **To earn NCAA credits (for student-athletes)** — Online courses that are NCAA-accredited can help student-athletes get ahead on college requirements over the summer, so they have more flexibility for balancing sports and school in the upcoming year.

HIGH SCHOOL SUMMER COURSES

Online summer classes offer students flexible opportunities to earn credit, learn at a pace that fits their busy schedules, and keep their minds active during summer break. This summer, your students can choose from 150 online courses taught by highly qualified, Michigan-certified teachers. Students will have 10 weeks to complete coursework at their own pace and will receive guidance and feedback from their instructor along the way.

MIDDLE SCHOOL SUMMER COURSES
- EdReady Math (Grades 4-8)
- EdReady English (Grades 8-9)
- Character Education
- Computer Basics (Google Suite)
- MS Guitar 1A
- MS Guitar 1B
- Any high school-level online course offered in the summer**

**For middle school students who are eager for a challenge and want to get ahead, our high school-level courses provide an excellent opportunity for credit advancement over the summer.
Studies show that most students lose 2 months worth of mathematical skills over the summer. One way to mitigate the dreaded “summer slide” is to provide them with outlets to flex their math muscles. One way you can do this is through Michigan Virtual’s EdReady Math program — which helps students in grades 4-12 master mathematical skills and concepts they find challenging.

Only $39.95 for the entire summer, this web-based program provides students with online diagnostic testing and a personalized playlist of interactive lessons that will help them reach the next level in their math journey. By the end of these programs, your students can master over 400 critical concepts and skills, including:

- Whole Numbers
- Factoring
- Decimals
- Percentages
- Geometry
- Concepts in Statistics
- Real Numbers
- Exponents and Polynomials
- Radical Expressions
- Rational Expressions
- Trigonometry
- Solving Equations and Inequalities
- Quadratic Equations
- Exponential and Logarithmic Functions
- Ratios, Rates and Proportions
- Fractions and Mixed Numbers

EdReady is part of the non-profit NROC Project.

Summer Enrichment Programs for Grades 3-12

In addition to online courses, we also offer several self-directed, non-credit-bearing summer programs designed to keep students from grades 3-12 active and learning over their summer break:

**Online Summer Camp: Minecraft Edition (Grades 3-8)**
Includes 4-weeks worth of educational challenges in Minecraft: Education Edition designed to engage students’ literacy, math, and coding skills.

**Summer French & German Boost (Grades 8-12)**
Keep their world language skills sharp with online summer programs powered by Lingco Language Lab’s artificial intelligence-driven software.

**Social & Emotional 360 (Grades 3-12)**
A digital library of expert resources for parents and students on hard-to-talk-about topics including bullying, mental health, substance abuse, vaping, and more.

LEARN MORE AT MICHIGANVIRTUAL.ORG/SUMMER
Ask your school counselor how you can enroll your student in an online summer course with Michigan Virtual today!

If your school does not offer our online courses as a summer school option, you can still enroll your student in online summer courses on your own; however, you should speak to your school counselor first to ensure the course will be accepted for credit.

**SUMMER 2020 SCHEDULE**

Classes begin: June 8, 2020
Last day to enroll/drop courses with refund: June 26, 2020
Classes end: August 14, 2020

LEARN MORE AT MICHIGANVIRTUAL.ORG/SUMMER

Enrollment for Fall 2020 courses opens in March!
During the school year, we offer over 200 online courses and electives for Michigan students — including over 20 AP courses, seven world languages, Essentials courses for credit recovery and over 40 core courses and electives for middle schoolers.

Fall 2020 Dual Enrollment course enrollment will open by May.
