ONLINE SUMMER CAMP: MINECRAFT EDITION

GRADES 3-8
If they’re going to play video games this summer, they might as well learn along the way!

Other Summer Learning Options

Summer French & German Boost
Keep your students’ (grades 8-12) world language skills sharp with online summer programs powered by Lingco Language Labs’ artificial intelligence-driven software.

Online Summer Courses
During the summer, we offer online courses on over 150 different subjects. Students (grades 6-12) have 10 weeks to complete summer coursework at their own pace and will be supported along the way by a highly qualified, Michigan-certified online instructor who is an expert in their subject area.

Free Mental Health & Social Emotional Lessons
Our new Michigan Cares program provides FREE lessons and videos to K-12 students, parents, and educators on developing critical skills required for mental, social, and emotional wellbeing.

EdReady Math & English
EdReady Math (grades 4-12) and EdReady English (grades 8-12) empower students to meet their college and career aspirations by providing them with a personalized study path to mastering critical skills and concepts in math and English. These learning experiences are FREE for a limited time.
