ONLINE SUMMER CAMP: MINECRAFT EDITION

GRADES 3-8

If they’re going to play video games this summer, they might as well learn along the way!

A summer program designed to keep Michigan students busy & learning.

During Online Summer Camp: Minecraft Edition, students will be transported to the virtual island of Pangea where they will be asked to use their creativity and ingenuity to complete educational challenges in the world of Minecraft: Education Edition.

With 4-weeks worth of self-directed challenges, your child will:

* Level-up math and literacy skills
* Learn the basics of coding
* Build 21st-century skills
* Practice critical thinking
* Explore creatively
* Collaborate with others
* Work on communication skills
