

MICHIGAN
VIRTUAL

Celebrating Michigan's Successes in Building AI Literacy

Facilitator:
Justin Bruno
AI Strategist

Session Outline

- Welcome and introduction to AI Literacy Day
- Overview of *Michigan Virtual's* AI Lab
- Oakland Schools: AI Literacies through Action
- Avondale Schools: Building a Future-Ready Learning Community
- Ottawa Area ISD: AI Empowered Student Design
- Facilitated Q&A with panelists

NATIONAL AI LITERACY DAY

<https://www.ailiteracyday.org/>

What is AI Literacy?

AI literacy includes the knowledge and skills that enable humans to critically **understand, use, and evaluate** AI systems and tools to safely and ethically participate in an increasingly digital world.

The knowledge, skills, and attitudes associated with how artificial intelligence works, including its principles, concepts, and applications, as well as how to use artificial intelligence, such as its **limitations, implications,** and ethical considerations.

MISSION

Maximize learning and teaching by combining the best in people and technology.

VISION

Be Michigan's leader for innovation in education.

VALUES

Put Learners First
Act with Integrity
Champion Diversity
Commit to Excellence
Cultivate Creativity

Strategic Priorities

- 1. DRIVE**
Educational Change
- 2. BROADEN**
Student Pathways
- 3. POWER**
Professional Learning

Strategic Accelerants

- Evolve Digital Ecosystems
- Be a Talent Destination
- Promote Fiscal Health

What is the AI Lab?

A hub for research, best practices, experimentation, policy development, and raising awareness about the responsible utilization of AI in schools.

Michigan Virtual AI Initiatives Overview (Since Dec 2022)

- **Publication of the [AI Integration Framework & Guide](#) (August 2023):** The framework and guide have been endorsed by the Michigan Department of Education in a December 12, 2024 memo.
- **AI Summits (December 2023 & December 2024)**
- **Khanmigo Pilot (January 2024 - 2025)**
- **Publication of an [Interactive Teacher Guide](#) (November 2024)**
- **AI Literacy [Video Series](#) (December 2024)**
- **Statewide AI Workgroup (February 2024-present)**
 - Published [K-12 Guidelines for AI Use](#) (May 2024)
 - **Research publications:** Three studies, one study examining the [perceptions and usage habits of AI tools](#) by Michigan educators, the second focused on early [online student usage](#), and a third [meta-analysis on educator acceptance of AI](#).
- **Convened AI Community of Practice** with partners at REMC (January - June 2025)
- **Facilitated AI Ambassadors Program (February - June 2025)**
- **AI Consulting partnerships with districts (2023-2025)**
- **National AI Literacy Day ([April 2024](#) & [March 2025](#))**
- **Educator training on AI (October 2022-present):** Over 80 school districts, two virtual & asynchronous PD courses on ChatGPT for educators totaling over 1,100 enrollments, over 14k educators reached in person.
- **[Keynotes](#) (2022-2025)**

CHELSEA
SCHOOL DISTRICT

Hartland Consolidated
Schools

Initiate

- Hold awareness sessions
- Form an advisory team
- Develop policies and guidelines
- Explore tools

Build

- Provide professional development
- Refine guidelines with broad input
- Adapt assessment strategies

Process of AI Integration

- Identify & share promising practices
- Update policies & guidelines as needed
- Monitor adoption of tools & strategies

- Begin AI literacy efforts in classrooms
- Share & implement guidelines with students and families
- Provide ongoing training

Schools**

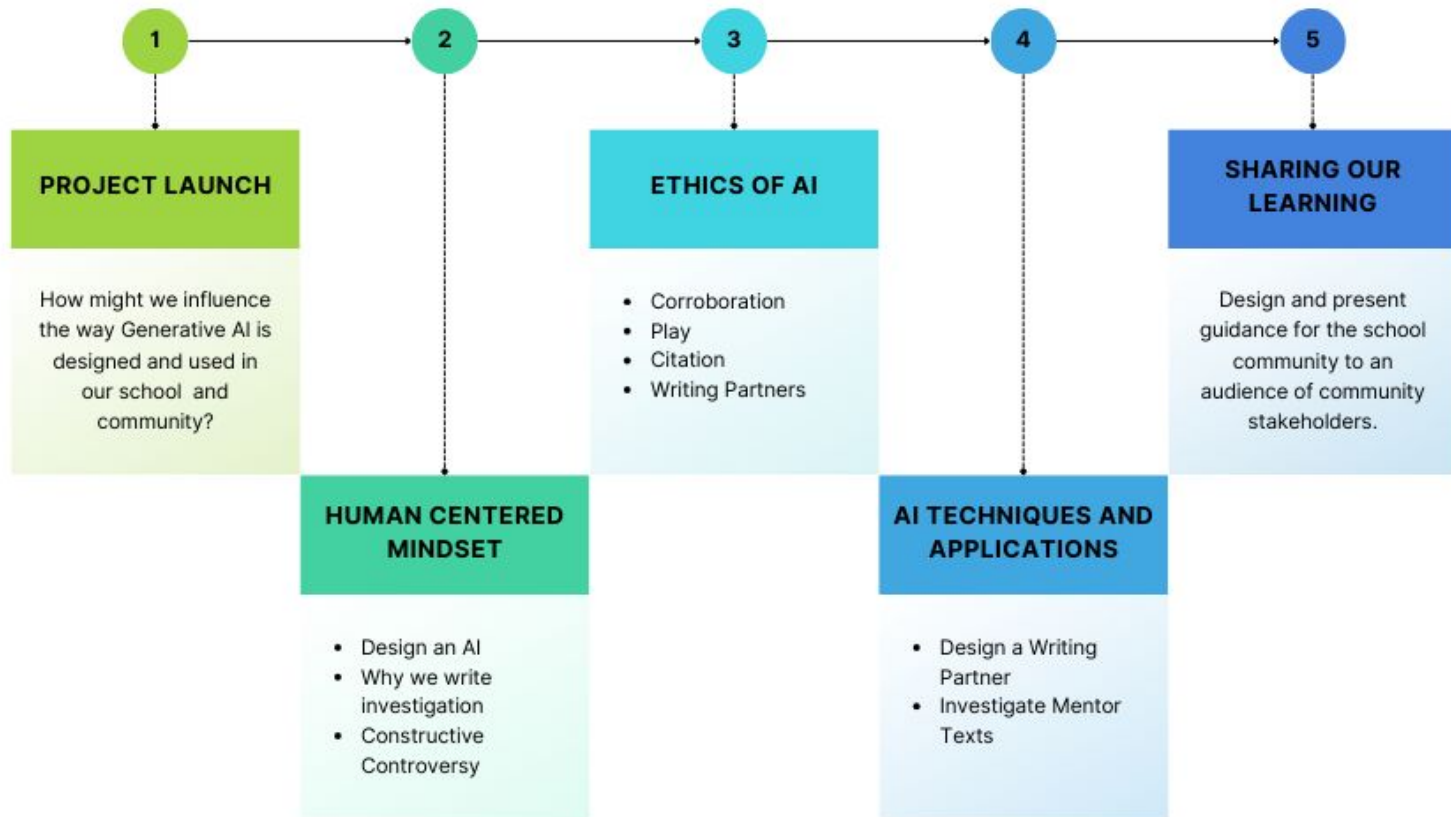

UNESCO AI Competencies for Students

Competency aspects	Progression levels		
	Understand	Apply	Create
• Human-centred mindset	• Human agency	• Human accountability	• Citizenship in the era of AI
• Ethics of AI	• Embodied ethics	• Safe and responsible use	• Ethics by design
• AI techniques and applications	• AI foundations	• Application skills	• Creating AI tools
• AI system design	• Problem scoping	• Architecture design	• Iteration and feedback loops

Writing our Futures

Partnerships to build Capacity

Anchoring in Community
Honoring Values and Strengths

Avondale Schools: Our AI Journey beginning 2023

- **Openminded Leadership:** Merging differentiation, UDL, and AI
- Sought [Relevant PD](#) as AI Strategist and **Cognitive Coach**
- Initial district [workshops](#) and staff meetings focusing on:
 - Building Community **Trust and Unity** through SHARED EXPERIENCES
 - **Creative learning opportunities and Increased Teacher Efficiency**
 - **Student engagement** through chatbots as thought partners
 - AI powered Universal Design for Learning (UDL)
 - **Equity** in education
- Transitioned support model:
 - Classroom modeling of AI use as thought partner, **respect time**
 - Co-teaching opportunities, **empowering PLCs and other leaders**

Avondale Schools: United in Innovation and Equity

- **MagicSchool** Implementation (FERPA and COPPA approved, transcribed and flagged)
 - focused PD on highest use case among offered, most versatile tools (Buy in is key)
 - Partnering with AI tool representatives, Magic School, Schoolai, Gemini, etc
 - Safe launch spaces K- college
 - Professional Development Resources available and [CREATED](#)
 - **Student success stories: Breaking Barriers**
 - Text-to-speech and voice-to-text tools improving literacy, motivation, agency
 - AI thought partners increase peer communication and **inter-district collaborations (AMS/AHS)**
 - Differentiated **learning/leading opportunities and peer led grouping** (asset based)
- District **newsletters** (lots of pictures and testimonials)/NotebookLM Podcasts:
 - Showcase **TEACHER successes** and [student engagement](#)
 - Spark curiosity among teachers about new tools
 - Foster collaboration and support within/among buildings

Avondale Schools: Environmental AI Projects: Balancing Concerns

- AI Powered Student-led initiatives:
 - [Green Spaces project](#)
 - Award-winning Save the Snakes Initiative (5th grade)
 - Upcoming **Innovation Day**

- Project outcomes:
 - Real-world problem solving
 - [Design Thinking](#) >human relevance
 - Environmental awareness
 - Grant funding success
 - Community engagement
 - Career Readiness
 - **Focus on empathy and Ethics**

Avondale Schools: Collaborative Impact and Partnerships

- AI Task Force **ongoing** achievements:
 - **Data: Collaborative Reflections (Global, State, Local), Primary and Secondary Research/PD, Listening Sessions, Surveys, Zooms, Use Cases**
 - New "**Portrait of a Graduate**" with AI **safety, ethics** and career centered practices in mind
 - **AI literacy scaffolding** across the grades and into career exploration with community experts
 - Consult, Co-teach, Model, Cognitively Coach **BEST PRACTICES** (based on above)
 - Color-coded infographic system for classroom **TRANSPARENCY** posters
 - Restorative practices when "misconduct" occurs after clear expectations are set
 - Reflection portfolios for student AI use
- Strategic partnerships:
 - Michigan Virtual/REMC
 - Oakland Schools
 - Birmingham (*student mentors*), Northville, Clarkston
 - NAGC, ACTE, and MACUL conference participation

AI Empowered Student Design

Student Workshop: *Outcomes*

Artificial Intelligence [AI] Foundations OAISD

Dive into the fascinating Artificial Intelligence (AI) world with your OAISD peers. Designed for adult learners, this three-week, four-hour online course offers a blend of live virtual sessions and interactive content to provide a solid grounding in AI concepts and applications.

Course Facilitators:

- Sara DeVoogd, sdevoogd@oaisd.org
- Anne Thorp, PhD, athorp@oaisd.org

Ethical Use of AI in Your Classroom

Having clear guidelines and fostering agency are the keys to helping students use AI ethically and responsibly while creating your classroom expectations for use.

Co-Develop Ethical Use Guidelines with Students and AI

Step 1: Use generative AI tools to create a list of discussion questions on ethical use in your classroom. When you prompt AI, consider the following:

- What are the values and norms you want to foster in your classroom?
- How can you make space for the knowledge or experience students have had with Generative AI?
- How can you make the discussion culturally relevant?

Step 2: Facilitate a class discussion using the questions you created with the assistance of AI. Make sure you take notes and encourage students to do the same.

Step 3: Create an appropriate use policy using AI and your students' insights. Use your notes and your students' to generate a list of things that matter the most to both of you when you think about the use of generative AI in your classroom. Incorporate this list of values and hopes in your prompt to AI.

Step 4: Evaluate the suggestions made by the AI with your students. As you do, consider:

- Did the AI accurately reflect the values and desires you included in the collective prompt?
- Are there any changes or updates you or your students would make to the AI generated policy?
- How can you make the final policy visible and assessable to your students all year round? (Classroom poster, a policy form that students sign, ect.)
